CHAPTER VI

CONCLUSION AND SUGGESTION

This chapter is presenting about the conclusion and suggestion of the research under the title code switching in teaching English At Nahdatulsuban School, Patani Thailand. The researcher concluded the result of the discussion according to the research problem .The researcher summarize about code switching that used by English teacher in teaching English and the benefits of code switching as well. In this chapter, researcher also write the suggestion. The suggestion is the researcher recommended of code switching in English class to give some advices to everyone.

A. Conclusion

According to the result on this research in the discussion, the researcher concluded that:

1. Code switching can be used all of teacher who teach the language such as teaching English, Spanish ,Thai or other languages in tire world. The teacher use code switching to make student more easily in learning English as the subject the offered by English teacher in Thailand in clued Nahdatulsuban where researcher did his research for completed his education. During the research, there are two types of code switching that used by English teacher in her

class, there are inter sentential switching and intra sentential.

2. The beneficial of code switching that researcher found are influence by English teacher and the students. Of course, the teacher wanted her student in every single subject especially in English to understand everything that she teaches. The benefit of teacher in teaching is to make student more and more understanding in English that why she need to change one language to another. And only understanding the subject but student had a good time student had fun with her and get knowledge from her during the lesson.

B. Suggestion

Based on the result of research, the researcher would like to give the suggestions as consideration below:

1. For the teacher

The teacher is the model of all student to give some knowledge to students in the school. So the teacher need to be careful when teaching language which is English because English is very complicated language to learn for the high school students. The teacher may not speak full English in teaching if teaches in school where area people do not speak English as habitual. The

teacher need to exchange the language for example Change English to Thai in order to make students understanding well.

2. For the students

   The students should be able to know well in learning English at school and use code switching that can help the students exchange the language while having conversation with their English teacher. The student has to know when to use code and in which situation.

3. For the reader

   Every reader who would like to know more about code switching, they can get the information via this research. The reader can learn about code switching use in daily life in conversation with other people

4. For future researcher

   The next suggestion is to give some advises to the next researcher who like to research about code switching. The researcher expected that the result of this study can be used as reference to do a further research that is related with the using code switching in having conversation.
