

CHAPTER V

CONCLUSION AND SUGGESTIONS

In this chapter, the researcher presents the conclusion and suggestions based on research findings and the discussion presented in the previous chapter.

A. Conclusion

Based on the result of hypothesis testing in research finding, it could be concluded that the mean of students' writing descriptive text ability after being taught using instagram's photo content is less than or equal to their skill before being taught by using instagram's photo content. It means that the use of instagram's photo content is effective for enhancing or increasing the students' descriptive writing ability.

As the result, the treatment that using Instagram photo content as teaching media could be called succesful. In addition, the findings of the research showed that the process of using Instagram's Photo Content was motivated students in writing descriptive text. The students gave positive attitude and actively participated during the implementation of Instagram's Photo Content. Overall, it could be said that Instagram's Photo Content as media in teaching writing is also suitable used in writing essay, recount text or just writing assignment. Furthermore, teaching writing descriptive text by using Instagram's Photo Content is effective to enhance or increase students achievement in the level of tenth grade students of SMKN 1 Boyolangu in academic year 2018/2019.

B. Suggestions

Based on the conclusion above, the researcher suggests to English teachers and future researchers as follows:

1. English Teachers

The researcher suggests to English teachers to use Instagram's Photo Content as an alternative media to enhance students' writing achievement. Using Instagram in teaching, teachers necessarily give peer or teacher feedback offline. It is intended to enrich the feedback that the students will receive. In addition, it can be suggested that teachers give more motivations to all students and pay more attention to the students with lower spirit and engagement during the teaching and learning process. This media are flexible in time because using mobile technology that be able to use everywhere and everytime as possible.

2. Future Researchers

The future research can use this research to get inspiring idea, they may develop this media or Instagram's Photo Content in another cases. In addition, the future researcher can use this research as reference to support some sources their needed. Besides, other researcher can develop with their other material which is suitable for the teaching learning process of English lesson. Furthermore, it is also recommended for the future researchers to use this finding as an additional reference and as a consideration in conducting the next research.
