

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, the researcher presents the conclusion and suggestion based on research finding and the discussion presented in the previous chapter.

A. Conclusion

Based on the result of using cue card as media to teach speaking the seventh graders of SMPN 1 Ngunut Tulungagung, it is conclude that there is a significant difference between students' speaking achievement between students who was taught using cue card and the one who was taught without using cue card.

Based on the result of SPSS 23.0 program calculation, it shows that the alternative hypothesis (H_a) is accepted and the null hypothesis (H_o) is rejected. The significant value of this research is 0.000, while the standard significant level is 0.05. It can be drawn as $0.000 < 0.05$ or the significant value is smaller than the significant level. It means cue card is effective for teaching speaking the seventh graders.

B. Suggestion

Based on the data gathered by the researcher, it is prove that cue card is effective to use as media for teaching speaking. Therefore, the researcher has some suggestion that presented as follows:

1. For English Teacher

The teachers suggested to use cue card as media to teach speaking to increase students' speaking achievement. Cue card can motivate student to reduce the anxiety when speaking and can call students memory to remember

some vocabularies. The clues on cue card also can help the students find idea about what to say. Secondly, teachers should know students' speaking ability. It can be the input to determine the appropriate technique and media to teach speaking. So, the teacher can reach the maximum quality of English teaching exactly in teaching speaking skill.

2. Future Researcher

The future researcher can use this research to get inspiring idea. They may develop this media in another phases. In addition, they can use this research as reference if they need some source. Finally in this research, the researcher used quasi experimental design and the material was descriptive text. The researcher suggest for the next researcher who wants to conduct research about cue card, will used different research design and using cue card to teach another material of English lesson.
