

CHAPTER V

CONCLUSION AND SUGGESTIONS

In this chapter, the researcher presents the conclusion and suggestions based on research finding and the discussion presented in the previous chapter.

A. Conclusion

Based on the result of hypothesis testing in research finding, it can be concluded that the students' writing recount text ability after being taught using instagram application is less than or equal to their skills before being taught using instagram application. It means that the use of instagram application is effective to be teaching media for enhancing the students' recount writing ability. It proved by the result of the Paired Sample T-test showed that Sign. (2-tailed) is 0.000 and it was less than 0.05 ($0.000 < 0.05$). Based on the result of T-test, it means that the null hypothesis (H_0) is rejected and the alternative hypothesis (H_a) is accepted.

As the result, the treatment using instagram application as teaching media could be called succesful. In addition, the findings of the research showed that the process of using instagram application motivated the students in writing recount text. The students were active and enjoy during the implementation in instagram application being teaching media. Overall, it could be said that instagram application as media in teaching writing is also suitable used in writing essay, recount text or just writing assignment. Furthermore, teaching writing recount text by using instagram application is effective and can enhance students' achievement in the level of eight grade students of SMP Negeri 1 Tulungagung in academic year 2019/2020.

B. Suggestions

Considering the result of this study, the researcher would like to give suggestion, they are as follows :

1. English teachers

The teachers are suggested to use instagram application as an alternative media to enhance students' writing achievement. Using instagram application in teaching process, teachers necessarily give peer or teacher feedback in online mode. It is intended to enrich the feedback that the students will receive. In addition, it can also be suggested to the teachers to give more motivations to all students and pay more attention to the students with lower spirit and motivation. This media is flexible in time because using mobile technology or computer that be able to use every where and everytime as well as possible.

2. For Future Researchers

The future research can use this research to get inspiring idea, they may develop this media or instagram application in another cases. In addition, the future researcher can use this research as reference to support some sources. The researcher hopes for the next researcher can be investigate the effectiveness of instagram application use on the other language skill with different research design except using pre-experimental research design, in order to know whether still being effective or not by using instagram application as a teaching media.
