

## **CHAPTER V**

### **CONCLUSION AND SUGGESTION**

This chapter discussed the conclusion and suggestion of this research.

#### **A. Conclusion**

From this research, it can be concluded that:

1. The students need audio visual media to learn speaking. Audio visual media is video. Through video, students able to learn from the visual and audio. From the visual, students able to learn the gesture and expression. From the audio, the students are able to learn how to pronounce well and speak fluent.
2. In the process of making the video, the researcher should pass some steps of need analysis, planning and product design, expert validation, revision of product, and final revision. The result of need analysis was used to know students' opinion of good video. Then, the prototype was made based on the material in the third grade semester. The prototype was used to develop the product of video which was consisted of 5 videos. The video was given to the expert validator where the expert gave "very good" score. There was no additional suggestion from the expert, so the video was not passed revision process.
3. The final product was consisted of five videos. This video was based on the material from the third semester of IAIN Tulungagung at English department. Each video has short duration

and fulfilled the criteria of good video from Riyana. To know the user satisfaction of this developed video, the final product was given to the third semester students. Then, the students fulfilled the questionnaire for user satisfaction. The result shows that students were satisfied with the product. The video was developed well and suitable for third semester material about public speaking and debate.

### **B. Suggestion**

After knowing the result of this research, it was suggested that:

1. The video should be used by teacher in teaching speaking for the third semester students of English department. The content of the video was suitable with the material. It could help students in understanding the material well.
2. Students are able to use this video for helping them in learning material in third semester about public speaking and debate. This video can be downloaded easily through google drive.
3. Next researchers are able to develop the video with others speaking material in different semester. The next researcher able to increase the quality of the video better than in this research. It is suggested to upload the video in youtube, so everyone can access it easily.
