

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter presents conclusion of the research and suggestion. The conclusions are presented based on the result of the data analysis of the research. And suggestions are given to the students, to the English teacher, and to the future researchers.

A. Conclusion

The conclusion in this research entitle *The Effectiveness Of Using Storybird Platform To Teach Narrative Text Towards Students' Writing Ability At Tenth Grade Of SMK Sore Tulungagung*, *Storybird platform* is an effective media to improve students' writing skill in developing narrative text. The researcher had proven the research's data from students' writing scores by processing it through SPSS 16.0 version. And the result showed that there is a significant difference between students' score who were taught by using *Storybird platform* and those who were not.

The result of data processing in SPSS 16.0 that gained from post-test of two classes, experimental and nonequivalent control group showed different mean rank. For experimental group was 53.09 and for nonequivalent control group was 21.91. The sig. value showed 0.000 that means it is smaller than 0.05. Then alternative hypothesis is accepted and null hypothesis is rejected. Thus, it can be concluded that *Storybird platform* is effective to be used to improve students' writing ability in writing a narrative text.

B. Suggestion

The finding of the research showed that there is significant difference score of the students' writing ability between students that were taught by using *Storybird platform* and those who were not. Therefore, there are several important things that can be suggested in the last report of the paper and it is hopefully can be useful for the reader. The suggestions are addressed to the English teachers, students, and future researchers as follows:

1 For English Teachers

To make a good circumstance in teaching learning process, a teacher should use a media in order to attract students' interest. Students have their own characteristics. It is suggestion for English teachers to use *Storybird platform* in teaching writing, especially in teaching narrative text. The finding of research showed that the use of *Storybird platform* can make students feel free to express their ideas through pictures that are provided by *Storybird platform*. Pictures help students to write what they are thinking.

2 For Students

Students can use *Storybird platform* not only for writing a narrative text. But also to train their ability in writing a good story or paragraph. In *Storybird platform* account, students can also read people's story and of course it gives new vocabularies to the students.

3 For Future Researchers

The future researchers can use this research as the supporting source to get inspiration and this study can use as a reference for conducting further research of the relevant topics. Besides, they also can develop this media to be implemented in other language skill or another kind of texts which can help students to master English. Based on the result of this study, *Stroybird platform* is effective to be applied in teaching writing narrative text. So, the future researchers can conduct a research to prove whether *Stroybird platform* is even more effective or not.
