

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter presented about the conclusion and suggestion that related with findings and discussion as pretended in the previous chapter of this study.

A. Conclusion

After analyzing the data of this research, the researcher found twelve moral values based on Linda and Eyre (1997 as cited in Setiawan, 2014). There were honesty, bravery, peacefulness, loyalty, responsibility, respectfulness, love and affection, not selfish, kind and friendly, self control, confidence, and humanity. The researcher also found four morals values based on Harun as cited in his book of moral values, there were carefulness, good consideration, sorry and apologizing, patience, hard working, helping other, cheerfulness, share, and cooperation.

The researcher also found about the importance of moral value which can be learned from this movie, they were: a) bravery. People need bravery to face our fears and overcome the obstacles in our life, b) self-confidence. People need to be confident in doing a variety of things for the totality of us in doing something, c) helping other. Humans are social creatures who always need help from others, d) love. Having love is important because human are very sociable and have close relationships with other, e) responsibility. The responsibility can make someone more powerful to show their identity, f) patience. Actually each person has limit of patience.

Patiently train yourself not to complain about taking the test, g) hard working. If we keep working hard we can achieve the success we want.

Those moral values in this movie actually reminding the audience to be a good people from good characters in the movie and reminding the audience that bad people will be loser in the future.

B. Suggestion

Based on the result of this study, the researcher would like to give some suggestions:

1. For the Teacher

The teacher should have good moral when teaches their students. The teacher also must be creative to teach the students. For example use movie to improve the students' ability. Watching movie actually make the students understand about a good things and a bad things. So, it makes the students' knowledge improved.

2. For the Students

Watching movie actually not only make the students know about a good things and bad things, but also the students can improve their English skills, like listening, reading, speaking and writing. So, the researcher hopes that the students should be watching movie when they have a free time to improve their skills.

3. For Other Researcher

The researcher hopes that this study will give advantages for everyone who related with this study. The researcher also hopes that the other researcher can make this study more perfect.
