

## CHAPTER V

### CONCLUSION AND SUGGESTION

In this chapter the researcher would like to present the conclusion and suggestions based on the findings and discussion presented in the previous chapter.

#### A. Conclusion

Based on the finding, it concluded that the students' perception on the use of Google Form in English online quizzes was positive. It could be known from all of the statements that had interpretation response positive, so it indicated that most of the students of the tenth grade at MA At-Thohiriyah Ngantru Tulungagung had positive perception toward the use of Google Form in English online quizzes.

Regarding about the quiz administration, most of the students perceived that the online quizzes delivered periodically by the English teacher. Then, students perceived that Google Form was easy and flexible in the term of time and place. The students also perceived that internet connection, and the test format as the obstacles they found during the quizzes. This study also revealed that Google Form has made students happy and motivated in doing online quizzes, it also benefit for making students study consistently, read the previous material, increase their engagement and motivation in learning English, think critically about the course material before getting a lesson, as the practice for preparing exams, and decrease students' anxiety when doing quizzes. Lastly, this study revealed that from doing the online quizzes through Google Form, students could

get feedback easily, know where their mistakes, made them begin evaluating their understanding of the material and ask for help for the material that they haven't been understood.

Therefore, from the result of the research, it could be concluded that Google Form could be applied as the alternative media used to conduct online assessment especially in making online quizzes at MA At-Thohiriyah Ngantru Tulungagung.

### **B. Suggestions**

Based on the result of this study, the researcher would like to give some suggestions as follow:

#### 1. For the teacher

Google Form is suitable to be used for making online quizzes to assess students' understanding of the learning material. However, improving the online quizzes will be helpful for the students so that they more interested in doing the online quizzes and improve their ability. All of the problem that students' faced are needed to be considered in improving the online quizzes.

#### 2. For the students

Students can use the result of this study to know the benefit of doing online quizzes through Google Form, so that they can improve their learning.

### 3. For future researcher

The researcher hopes that the future researcher can conduct a study concerning to some strategies that teacher may use to anticipate the disadvantages of using Google Form in English online quizzes. Especially how to create a meaningful online quizzes for students by using Google Form
