

CHAPTER VI

CONCLUSION AND SUGGESTION

This chapter presents the conclusion and suggestion related to the results of the research. Based on the findings and discussion as presented in the previous chapter the researcher gets conclusion as follow :

A. Conclusion

The research is done to describe independent learning which done by non-English department student. The aims of this research is to figure out the activities done by non-English department student of IAIN Tulungagung to improve their speaking ability. Based on the data gained from interview, the conclusion can be drawn.

The findings of the study show that to improve their speaking skill, the subject of the study carried out three constructive activities representing their independent learning. Those activities are: (1) Listening music, in this activity, the subject will look for the lyrics of the music and listen to the music while reading the existing lyrics. They do these activities continuously so that he really knows how to pronounce a word and also they can add new vocabulary. (2) Reading aloud, in this activity the subject reads a book or story aloud. This aims to find out how to pronounce a word and also to correct themselves whether it is correct or not in pronouncing the words. (3) Watching movie, in this activity the subject will watch the movie through three stages. The first stage the subject will watch a movie as usual with the help of Indonesian subtitles,

the second stage, they will watch the same movie but with the subtitle speed turned down a little, the last stage, the subject will watch the movie without using any subtitles at all. It aims to train their ability to understand what the characters say, how to pronounce each word and new vocabulary. From this activity, the subject also finds a lot of sentences that are in line with daily activities and as much as possible to use these sentences to practice their speaking skills.

In conclusion, the activities carried out by non-English department students to improve their ability to speak English included: (1) Listening music, (2) Reading aloud, (3) Watching movies. All these activities are proven to give good results and students feel the progress they get from doing these activities.

B. Suggestion

Based on the result of the research findings the researcher would like to give some suggestion for the following people.

For students, they are expected to be more active and creative in finding ways they like to help them improve their learning abilities. They are also expected to provide motivation for friends to study together.

For the future researcher, For the future researcher who wants to conduct the similar research about the factor of anxiety and the strategies to

reduce it regarding to each of the factors, the result of this research can be used to be additional reference to make the future research better.
