

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter presents the conclusion drawn from the data analysis and some suggestions for the institution, English teacher, students and the further researchers.

A. Conclusion

After analyzing the obtained data about students' attitude and their English achievement. The researcher concluded that:

1. Based on the data analysis, the result was the students' attitude are positively correlated with their English achievement at MTs Sultan Agung Jabalsari. It means the better students' attitude toward English lesson, the better achievement they will get.
2. The correlation between students' attitude towards English lesson and their achievement at MTs Sultan Agung Jabalsari is considered as a high correlation. It means that student's attitude gave a big impact to student's achievements especially in English lesson.

B. Suggestion

This research had proven that the students' attitude and their English achievement had positive correlation. Then, in accordance to the significant of the research, the research tries to give some suggestions for the readers, especially:

1. The institution

The suggestion for MTs Sultan Agung is the researcher hopes this research may give positive input for the institution to improve the quality of students' attitude and their English achievement in the institution.

2. The English teacher

It is important for the teacher to give examples of good character, behavior, motivation, and good attitude toward English. And to get the maximal learning in the school, the teacher needs to look at the students' attitude for improving the learning activity. So the students can improve their achievement especially in English. The researcher hopes that the result of this study can be useful for the teacher as one of the resources in teaching English which is can applied in the future.

3. The Students

Students should pay attention to their attitude in English, so they will get knowledges and be a good students. And students have to be aware and explore themselves in learning so that they can achieve more in learning English or in another subjects.

4. The further researcher

For other reseracher who have interest in this subject it is suggested to the further researcher when conduct next research in the same field, especially in the students' attitude and achievement

in English. The improvement can be done through the method of research and get a satisfying result, but it will be better if the next researcher shows the other relevant factors of achievement and applies it with the varieties method. And also there are possibilities to correlate this subject with other variables since there are still many unexplained factors that can give contribute to students's English achievement . The researcher is also suggested that similar study can be conducted with bigger sample and large population in order to gain better result in the future.
