

CHAPTER VI

CONCLUSION AND SUGGESTION

In this chapter will contain the conclusions of the research findings and presents suggestion of the research. The clear descriptions were written below:

A. Conclusion

Besides the study of the types of slang and the meaning in the movie *The Hangover Part III*, there are five types of slang that used in this movie. Those are fresh and creative, flippant, imitative, acronym and clipping. In comparison, of the 103 American slang used in this movie, there are 14 slang terms categorized as fresh and creative slang, 35 slang terms as categorized as flippant, 48 slang terms categorized as imitative, 2 slang terms categorized as acronym and 4 slang terms categorized as clipping. Imitative dominated the type of slang that used in the movie *The Hangover Part III*. When speakers are using the imitative type of slang, they do not need specific knowledge of slang vocabularies because they can easily form this type of slang word by imitating any word and simplifying it. In this movie, it is well known that in informal situation people tend to use certain slang terms in bad or difficult situation, to express anger or surprised or shock and to denounce someone.

B. Suggestion

Based on the result of the research that has been described, the researcher would like to give some suggestions to the following: first, this

research contributes to enrich the study about slang terms for linguistics development in the field of sociolinguistics especially for English Education Department students in increase their knowledge about American slang. Some slang terms have a less polite meaning, so that is the way non-native English learners have to know the meaning of slang. Then, when they used American slang, there will not cause misunderstanding in communication. Second, the researcher hopes that this study can inspire future researchers to conduct further research by other topics related to slang terms. This study has its limitation. The researcher only selected the movie *The Hangover Part III* to analyze. This study focuses only on the types and the meaning of slang terms in the movie. Future researchers may conduct a research on slang term used by other objects to gain more knowledge about slang.
