#### CHAPTER IV

#### RESEARCH FINDING AND DISCUSSION

This chapter presents the result of research that involved the Finding and Discussion which included kinds of phrases, the function of phrases, and the meaning of phrases.

#### A. FINDING

In this part, the researcher points out the data that found in the songs' lyrics of Taylor Swift. After the researcher listened and read the 4 songs' lyrics entitled 22, *The Lucky One, Holy Ground, and Starlight*, the researcher found many of phrases are presented in the songs' lyrics of Taylor Swift. The phrases are not analyzed all but the researcher analyzes the phrases based on the technique of data collecting, the researcher would analyze the data which have difference in the structure of phrases. It is to limit the analizing data in order to make the data concise, because the form/the structure of phrases are similiar.

The data finding that is obtained by the researcher as follow: the first lyric entitle "22" the researcher found there are 25 data, in second lyric entitle "Holy Ground" there are 35 data, in third lyric entitle "The Lucky One" there are 29 data and the last lyric entitle "Starlight" there are 30 data. The presentations of the data as follow:

These all data are too much to be analyzed, so that the researcher only analyse the data which are not similar to the structure in 1,2,3 and 4 lyrics. Forthermore, from the result of collecting the data based on the structure, the data that would be analyzed are:

- 1. too many cool kids,
- 2. the whole scene,
- 3. this big wide city,
- 4. something to lose,
- 5. a bunch of land somewhere,
- 6. your secrets,
- 7. your whole life,
- 8. gotta have you,
- 9. forget about the heartbreaks,

- 29. in every crowded,
- 30. with made up name,
- 31. of how you dissapeared,
- 32. into a yacht club party

Those are the phrases that would be analyzed those are done in order to answer the research questions, to make the data concise and clear. Then, the researcher blends the data and grouped the data based on the kinds of phrase and based on the similarity of the structure.

Furthermore, in the next point the researcher discussed about kinds of phrase by analyzing the data above clearly using tree diagram (chart) and also mentions the other data finding which is similar to the data analyzed. Not only discussed the kinds of phrase, but the researcher also discussed about the function and the meaning of phrases.

#### **B. DISCUSSION**

In discussion presents the kinds of phrase in the lyric, the structure of phrase to analyze the kinds of phrase, the functions of phrases, and the meaning of phrases based on the original meaning (denotative) and the context (conotative).

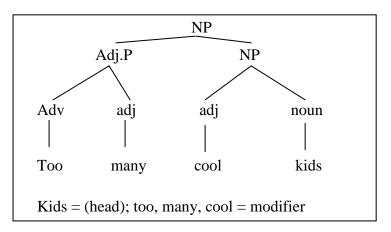

#### 1. Kinds of Phrases

Based on the reference of Greenbaum Sidney (1991:39) there are 5 types of phrases: noun phrase, verb phrase, adjective phrase, adverb phrase and prepositional phrase. In this case the researcher would analyze the types of phrase in the song's lyrics of Taylor Swift, and the researcher doesn't always find 5 types of phrases in each lyric. Here, the researcher would explain about the kinds of phrase in each lyric, the description as below:

#### 1.1 Noun Phrase

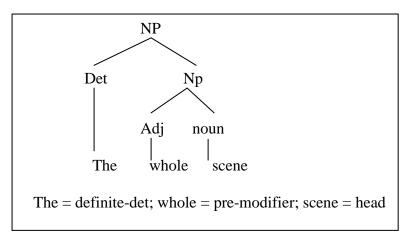

According to Verspoor, Marjolijn and Kim Sauter, (2000:120) state that "the possible constituents of noun phrases are determiner, premodifier, head, and post-modifier. Premodifier of nouns are always realized as adjective phrases, and even when there is only one word to modify a noun, it is still called a phrase because potentially it could have more than one word". For more explanation, it can be seen the example as follows:

(Fourth lyric, line 10): worrying too much

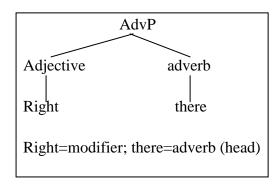

\*Chart 4.22.Tree Diagram (22)

#### 1.4 Adverb phrase

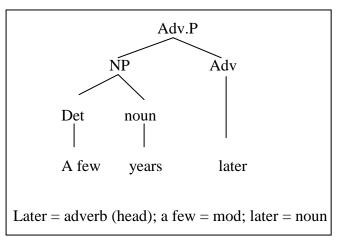

According to Greenbaum Sidney (1991:65) said that "the structure of the typical adverb phrase is similar to that of the typical adjective phrase except for the class of the main word". The main word in an adverb phrase is an adverb, the example is below:

### (Second lyric, line 10): right there

\*Chart 4.23.Tree Diagram (23)

(Third lyric, line 20): <u>a few years later</u>,

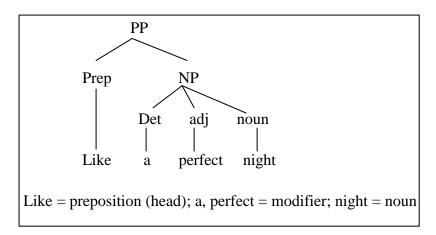

\*Chart 4.24.Tree Diagram (24)

## 1.5 Prepositional phrase

According to Verspoor, Marjolijn and Kim Sauter, (2000:137) they explain that "a prepositional phrase has two constituents, a head, always realized by a preposition, modifier and a complement, a complement always realized by a noun, pronoun or clause".

#### (First lyric, line 1): <u>like a perfect night</u>

#### 2. The Functions of Phrase

In this part, the researcher pointed out the functions of the group of word that found in the 4 songs' lyrics of Taylor Swift. According to Gelderen, Elly Van (2002:61) explains that "from 5 kinds of phrase (Noun phrase, Verb phrase, Adjective phrase, Adverb phrase, and Prepositional phrase), all phrases have main functions in the sentence or clause. Example: as Subject, Predicate, Direct Object (DO), Indirect Object (IO), Object Predicate and Subject Predicate".

Meanwhile, according to Greenbaum, Sidney (1991:47) said that "5 phrases have possible functions, they can be as subject, direct object, indirect object, object complement, subject complement, adverb, modifier and can be an infinitive verb or finite verb"

From the explanation above, the researcher would discuss the functions of phrases that found in the songs' lyrics of Taylor Swift by referring to Greenbaum, Sidney (1991:47). The result of analyzing as below:

#### a. Subject

• Noun Phrase, (1<sup>st</sup> lyric, line 14)

#### Too many cool kids

The function of phrase "too many cool kids" analyzed as follows:

An underlined phrase above indicates as noun phrase and it has function as subject, because there isn't other word or phrases

before the phrase.
