

ABSTRAK

Skripsi dengan judul “Analisis Dampak Covid-19 terhadap Kesejahteraan Ekonomi Masyarakat Desa Besole Kecamatan Besuki Kabupaten Tulungagung” ini ditulis oleh Devi Ratnaningtyas, NIM. 12402173113, pembimbing Elok Fitriani Rafikasari, M.Si.

Penelitian ini dilatarbelakangi oleh munculnya permasalahan global yaitu wabah virus Covid-19. Di Indonesia saat ini angka positif Covid-19 terus bertambah setiap harinya, khususnya di Tulungagung yaitu di Desa Besole Kecamatan Besuki juga banyak masyarakatnya yang terpapar virus Covid-19. Pandemi Covid-19 berdampak terhadap kegiatan perekonomian masyarakat Desa Besole. Pendapatan ekonomi masyarakat Desa Besole mengalami perubahan akibat terdampak Covid-19. Maka dari itu penelitian ini mengangkat permasalahan mengenai dampak dari Covid-19 terhadap kesejahteraan ekonomi masyarakat Desa Besole Kecamatan Besuki Kabupaten Tulungagung. Penelitian ini bertujuan untuk mengetahui perbedaan tingkat kesejahteraan ekonomi masyarakat Desa Besole sebelum dan sesudah terdampak Covid-19 yang diukur dengan melihat pendapatan ekonomi masyarakat Desa Besole sebelum dan sesudah terdampak Covid-19.

Teknik yang digunakan dalam pengambilan sampel pada penelitian ini adalah *nonprobability sampling* dengan metode *incidental sampling*. Jumlah sampel yang digunakan dalam penelitian sebanyak 100 responden yaitu masyarakat Desa Besole Kecamatan Besuki Kabupaten Tulungagung. Penelitian ini menggunakan pendekatan kuantitatif dengan sumber data yang digunakan adalah data primer. Teknik analisis yang digunakan adalah analisis komparatif yaitu uji beda *dependen sample t-test* untuk uji parametrik dan uji beda *wilcoxon* untuk uji non parametrik.

Hasil penelitian dari pengujian hipotesis menggunakan uji *Wilcoxon* menunjukkan bahwa terdapat perbedaan pendapatan ekonomi masyarakat Desa Besole sebelum dan sesudah Covid-19. Maka hasil penelitian menunjukkan bahwa (1) Kondisi perekonomian masyarakat desa besole sebelum adanya Covid-19 cukup baik dan terkendali, (2) Kondisi perekonomian masyarakat Desa Besole pada masa pandemi Covid-19 melemah dan mengalami kemerosotan serta mengalami penurunan pada pendapatan ekonomi masyarakat, (3) Tingkat kesejahteraan ekonomi masyarakat Desa Besole akibat terdampak Covid-19 mengalami penurunan. Hal ini ditunjukkan dari adanya perbedaan rata-rata pendapatan ekonomi masyarakat sebelum Covid-19 dan sesudah Covid-19. Maka terdapat perbedaan tingkat kesejahteraan ekonomi masyarakat Desa Besole Kecamatan Besuki Kabupaten Tulungagung sebelum dan sesudah terdampak Covid-19.

Kata Kunci: Covid-19, Kesejahteraan Ekonomi Masyarakat, Pendapatan

ABSTRACT

Thesis with the title "Analysis of the Impact of Covid-19 on the Economic Welfare of Besole Village Community in Besuki Subdistrict, Tulungagung Regency" was written by Devi Ratnaningtyas, NIM. 12402173113, advisor by Elok Fitriani Rafikasari, M.Si.

This research is motivated by the emergence of global problems, namely the Covid-19 virus outbreak. In Indonesia today the positive number of Covid-19 continues to grow every day, especially in Tulungagung, namely in Besole Village, Besuki Subdistrict as well as many people who are exposed to the Covid-19 virus. The Covid-19 pandemic has an impact on the economic activities of the besole villagers. The economic income of besole villagers has changed due to the impact of Covid-19. Therefore, this study raised the issue of the impact of Covid-19 on the economic welfare of the people of Besole Village, Besuki Subdistrict, Tulungagung Regency. This study aims to determine the difference in the level of economic welfare of besole villagers before and after the impact of Covid-19 as measured by looking at the economic income of besole villagers before and after being affected by Covid-19.

The technique used in sampling in this study is nonprobability sampling with incidental sampling method. The number of samples used in the study as many as 100 respondents, namely the people of Besole Village, Besuki Subdistrict, Tulungagung Regency. This research uses a quantitative approach with the data source used is the primary data. The analysis techniques used are comparative analysis, namely t-test dependent sample different tests for parametric tests and wilcoxon different tests for non-parametric tests.

The results of the hypothesis test using Wilcoxon test showed that there is a difference in the economic income of besole villagers before and after Covid-19. Therefore, the results showed that (1) The economic condition of besole villagers before Covid-19 was quite good and controlled, (2) The economic condition of besole villagers during the Covid-19 pandemic weakened and decreased and decreased in the economic income of the people, (3) The level of economic welfare of besole villagers due to the impact of Covid-19 decreased. This is shown from the difference in the average economic income of people before Covid-19 and after Covid-19. So there is a difference in the level of economic welfare of the people of Besole Village, Besuki Subdistrict, Tulungagung Regency before and after the impact of Covid-19.
