*The thesis entitled "Analysis of Producer Behavior of PT Putra Jaya Nanas in Pnggok Blitar during the Covid-19 Pandemic in an Islamic Economic Prespective" was written by Ike Lutfia Nur Safitri, 12402173449, Faculty of Economics and Islamic Business, Department of Sharia Economics, Sayyid Ali Rahmatullah State Islamic Universiy Tulungagung, Adwisor Ahmad Syaichoni, M.Sy.*

*This research is motivated by the various impacts felt by producers due to the COVID-19 pandemic. The COVID-19 pandemic has changed the behavior patterns of producers in carrying out their production activities. There are those who innovate products, there are those who swerve to switch to other businesses, there are also those who change their production patterns by reducing the working hours of workers, reducing labor or layoffs, temporarily stopping their production activities and even closing their businesses or going out of business. One of the producers who can still survive and continue to carry out production activities in the midst of the covid-19 pandemic is a pineapple juice drink producer, PT Putra Jaya Nanas in Blitar, with its beverage product, "Segarrr".*

*This research raises the focus of the problem: 1) How is the motive for selecting producer capital during the covid-19 pandemic 2) How producers determine the amount of production during the covid-19 pandemic 3) How do producers determine the number of workers during the covid-19 pandemic 4) How do producers determine the number of workers in the behavior of the producer PT Putra Jaya Nanas in carrying out their production activities during the covid-19 pandemic in the perspective of Islamic economics. The purpose of this study was to determine whether or not there were deviations made by the producer PT Putra Jaya Nanas during the covid-19 pandemic from a sharia economic perspective.*

*This study uses a qualitative research method with a field research approach. Data collection techniques through observation, interviews, and documentation. The data analysis technique of this research uses the concept of Miles and Huberman, namely data collection, data reduction, data presentation, verification, and drawing conclusions that show the answers to this research.*

*The research results: 1) During the pandemic, the producer of PT Putra Jaya Nanas in their production used personal capital, with the motive of wanting to avoid usury 2) During the pandemic, the producer of PT Putra Jaya Nanas made adjustments and adjustments to the amount of production that was adjusted to demand 3) During the pandemic, the producer of PT Putra Jaya Nanas applies the division of 2 shifts that come in alternately and there is a reduction in working hours as well 4) The behavior of the producer of PT Putra Jaya Nanas during the Covid-19 pandemic did not deviate from Islamic law, as evidenced by the behavior of the producer of PT Putra Jaya Nanas such as: a) requires all to pray together before and after carrying out production activities, remind and facilitate their workers to pray, and comply with health protocols b) always do good Friday charity by distributing food and drinks to neighbors, orphanage children, people on the streets c) factory waste does not damage or interfere with the safety and comfort of the environment around.*
