

CHAPTER V

DISCUSSION

In this chapter, the researcher presents the discussion of data finding with the theory chosen by the researcher. The data finding has been analyzed in Chapter IV. In this study, the aim is to analyze the educational value of the Coach Carter Movie. The data were analyzed from the research results above by watching and reading the Coach Carter movie script.

A. Educational values found in Coach Carter's movie

The results of the analysis of educational values found in the Coach Carter Movie are related to Mubarak that educational values divide into two groups, namely Value of Being and Value of Giving. Value of Being is the value that exists in humans, namely how to treat others, consists of honesty, brave, peace, confidence, and potential, self-discipline and moderation, purity. While the Value of Giving, the value that needs to be practiced or given will then be accepted as something given consisting of loyalty, respect, love and affection, selfishness, kind and friendly, fair and humanist.

B. Educational values presented in Coach Carter movie

In this movie, researchers found eleven educational values: Self-Discipline and Moderation appear more often in the dialogues of the Coach Carter movie. Here Self-Discipline and Moderation are found six data. Honesty found three data. Brave, Confidence and Potential, Fair and Humanist found two data. The last one is Purity,

Loyalty, Respect, Love and Affection Not Selfishness, Kind and Friendly found one data. From this explanation, the conclusion of the educational value that often appears in the Coach Carter movie is Self-Discipline and Moderation with six dominant data.

Several previous studies regarding educational value were from Saputra with the thesis title Analysis of Educational Values in the Novel "Rana 3 Warna". This research has similarities in assessing the value of education. However, it differs in the object of research and focuses on the intrinsic elements of the novel literature entitled Rana 3 Warna. He found that the intrinsic elements of novel literature consist of characters and characterizations, plot, setting, point of view, style, and theme. The values of education are life is a struggle, education is a human right, never give up, patient but not passive, the power of dreams, respect for parents, respect for teachers, optimism in life, confidence.

The second was from Mukarromah with a thesis entitled Analysis of Character Education Values in the "Zootopia" Movie Script. Although the same study focuses on the educational value of movies, the topics are different. That is, the movie is analyzed based on the character of the Zootopia movie. He found ten types of educational values spoken by the characters: respect, responsibility, justice, tolerance, wisdom, mutual assistance, altruism, cooperation, courage, and self-confidence. Then, the most dominant educational value in this movie is helping each other.

Another research from Suryati with a thesis entitled Analysis of Educational Values in the Movie "Life of Pi." The researcher found that the educational values in the movie are purity, unyielding, unselfish, religion, loyal, grateful, respectful, peaceful, diligent. The benefits of watching the movie Life of Pi are educational media, entertainment media, and a source of inspiration.

The last is Arianty, with a thesis entitled Analysis of Setting and Educational Values Based on Animated Movies "Brave." This study focuses on the educational value and setting in the movie. The researchers found that the educational values found included responsibility, honesty, religion, independence, creative, disciplined, democratic, peace-loving, social care, environmental care, respect for achievement respect, cooperation, curiosity, national spirit, and friendship.

Inference to the finding and the previous study above, that movie shows that the film is not just a story that has no value in life, but the film can be an example of good values for life, one of which is the value of life education. English teachers can recommend films to teach students and use them as teaching media so that students who watch movies can get educational value.
