

## **CHAPTER VI**

### **CONCLUSION AND SUGGESTION**

This chapter presents Conclusion and Suggestion concerning on analyzing the educational value in The Lion King Movie.

#### **A. Conclusion**

After the researcher found a lot of educational value in the lion king movie then analyzed it, the researcher concluded that there were eleven educational values found in the Lion King Movie, so that the findings of the educational value in the lion king movie were relevant with the classification of educational values based on Zaim El Mubarak. The educational values contained in the lion king movie were: a. Value of being consist of 1) Honesty, 2) Bravery, 3) Confident and potential, 4) Self-discipline, 5) Purity and b. Value of Giving consist of 1) Loyalty, 2) Respect, 3) Love and affection, 4) Kind and Friendly, 5) Not Selfish, 6) Fair and Humanist.

On the other hand, there were also two unique values which is not relevant with the theory of educational value by Zaim El Mubarak. Those are Responsibility value and Not giving up value. That two values relevant with the theory of educational value by the Ministry of National Education Indonesia. The Educational value presented in the Lion King Movie is directly (explicit) and indirectly (implicit).

## **B. Suggestion**

After conducting this research and analyzing the lion king movie, the researcher would like to give suggestions to the readers or students, teachers, and other researchers for consideration.

1. Suggestion for the readers or the students, the researcher hopes Students can take the educational message. They can know the negative and positive effect of the action they took. The researcher also hopes that people when watching movies not only make it a medium of entertainment but also as a medium of learning.
2. Suggestion for the teacher, the researcher hopes this research can enrich knowledge about literature especially in the term of educational value and in teaching and learning activities the teacher can choose the movie as one of the learning media. The teacher chooses a movie that is suitable for use as a learning medium and guides students in applying the educational values that have been obtained after watching the movie.
3. Suggestion for the other or next researchers, researcher hope that next researchers can use this research for the sources and has more varied in the use of object and deeper in analyze the object so it can be obtained meaning that can be more useful for many people.
