

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based on the result of the analysis the study brings to the following conclusion that there is a positive correlation between habit in listening English song and their translation skill at sixth semester of IAIN Tulungagung. Based on the score of questionnaire, there were 67,741% who got very high or 21 respondents got very high category, 32,258% who got high category or 10 respondents. Thus, in general it can be said that the students' habit in listening English song at the 6th semester of English Department in IAIN Tulungagung was high.

In contrast, based on the score of translation skill at 6th semester of IAIN Tulungagung, there were 64,516% respondents who got excellent category or 20 respondent from 31 sample was excellent. In addition 11 respondent got high score or 35,483%. So, it can be said that the students' translation skill at 6th semester at IAIN Tulungagung was good.

The significant correlation between habit in listening English songs and their translation skill at 6th semester of IAIN Tulungagung. Based on the computation, it was known the value $r_{xy}=0,642$. The correlation criteria were sufficient correlation because of $r_{xy}=0,642 > r_{table}$ with $df = 28$, the significant standart 1% = 0,456 and $0,642 > 0,456$. It means that null hyphotesis (H_0) was rejected and alternative hyphotesis (H_a) was accepted.

B. Suggestion

From the finding of the research, the researcher would like to propose some suggestions to teachers, student and the next researcher:

1. For Teacher

Teaching English is not easy. The teacher should be creative to make the atmosphere on the class enjoyable. Use of authentic material in teaching learning process is helpful. English song can make students more enthusiastically and enjoy. Because of English song contains of words that express the ideas, feelings and experiences of the author.

2. For students

The students should be more active in teaching learning era. The students can studying with many ways. One of them is listening English song. English song is one of the effective media to develop their translation skill since it provides meaningful and enjoyable language practice.

3. For the future researcher

Although the students' interested in listening English song, there many factors that could be improve students' translation skill that the researcher has not investigated yet. So, it suggested to conduct another research in the same field as the reseracher done. The aim is to find another predictors variables, which are supposed to support students' translation skill.
