

## **CHAPTER V**

### **CONCLUSION AND SUGGESTION**

In this chapter presented the conclusion from the research and suggestion for the reader.

#### **A. CONCLUSION**

The finding of this research revealed that Cartoon Movie was effective used as a media for the first grade students at SMPN 1 NgantruTulungagung. It could be seen from their enthusiasm and interest during participating the learning by using cartoon movie. There was also significant difference between the students score of the experimental and control group.

Based on the research finding in this study, it was known that the mean post test score of students listening of experimental group was 83,09, while the control group was 76,53. It means that there is any difference on the mean score of listening ability between the students who are taught by using cartoon movie and not using cartoon movie.

The data was also computed statistically by using Independen Sample Test on SPSS Statistics 22.0. The output of statistical computation it was known that sig. value of listening was 0, 018. It means that the significant level more than 0.05 ( $0, 018 < 0,05$ ) which mean the alternative hypothesis ( $H_a$ ) was accepted, while the null hypothesis ( $H_0$ ) was rejected. So, it can be conclude that there was any significant on the mean score of listening ability between the students who are taught by using cartoon movie and not using cartoon movie.

The conclusion of this research that there is any significant on the mean score of listening ability between the students who are taught by using cartoon video and not using cartoon video. So, the students showed great interest to be actively involved in the teaching learning process.

## **B. SUGGESTION**

The use of cartoon movie in this study has a significant effect toward the students' listening ability. Moreover, cartoon movie more interesting and effective than the use conventional media. So, the researcher wants to give some suggestions for English teacher, the students, and the next researcher.

### **1. For English Teacher**

It would give then description about how to teach and to motivate the students to learn about English especially in listening learning. It is important for the students to get the interesting media in the classroom in order to avoid their boring. The use cartoon movie could be a good althervative or variation in teaching listening, where it would make the students enjoyed following the lesson.

### **2. For English Students**

It may motivate students to improve their interest in learning English since they will find out that learning English is not always difficult to learn. Their improvement of interest in learning English will help them master in English well. So, they should have a good participation and response in the classroom.

### **3. Other Researcher**

This research used the cartoon movie to examine on students' listening ability. The result of the study not perfect yet, it is suggest to other researcher can be used as references to conduct a further research dealing with teaching method used in the classroom.
