

CHAPTER VI

CONCLUSION AND SUGGESTION

This chapter presented about the conclusion and suggestion that related with the findings and discussion as pretended in the previous chapter of this research.

A. Conclusion

After analyzing the data of this research, the researcher found thirteen moral values based on Indonesian law on Permendikbud No. 20 of 2018 as the parameter to analyze the moral values in the movie. Honesty, tolerance, discipline, hard work, creativity, democrat, curiosity, patriotism, appreciating achievement, friendliness, love, peace, social care, and responsibility. The researcher also found characterizations shown by the main characters in “Maya the Bee” movie. In the movie, the researcher found four main characters. They are Maya, Willy, Sting, and Flip and every character in the movie has different characteristics. Maya’s characteristics are the protagonist with high curiosity, friendly with other bugs in the meadow, and honest and creative bee. Willy is Maya’s best friend who has characteristics friendly and cares full. Sting is a baby hornet. He is the protagonist, and his characteristics are friendly and never differentiate friends even though from different colonies with him. Moreover, the last main character is Flip, and he is a grasshopper who is friendly and cares for other bugs in the meadow. Maya the Bee movie is a movie with lot of moral values that can be learned. This movie teaches us that bad people will lose and become losers in the future.

And those moral values that found in the movie actually reminding us to be good people whenever and wherever we are.

B. Suggestion

Based on the result of the research, the researcher would like to give some suggestions:

1. For the teacher

Teachers should have good morals and attitudes when they teach their students. The teacher also must to creative and innovative when teaching students. They should use exciting tools to improve their ability. Interesting tools like the movie, watching movies can make students understand good and bad things. So, it will improve their knowledge.

2. For the students

Watching movies improves students' knowledge about good and bad things and can improve students' English skills like reading, listening, writing, and speaking. So, the writers suggest that they can watch the movie when they have free time to improve their English skills and knowledge.

3. For other researcher

The researcher hopes that this study will give an advantage to the other researchers who related to this study. The researcher also hopes that the other researcher can perfect the study by researching the same subject. So, it will find rich data from the subject.
