

CHAPTER V

CONCLUSION AND SUGGESTIONS

In this chapter, the researcher would like to present the conclusion and suggestion based on the research findings and discussion presented in the previous chapter.

A. Conclusion

The purpose of this study is to find out the students' perception on the use of New Concept in learning grammar at BEC Pare-Kediri. There were 49 students who completed the e-questionnaire about New Concept in their grammar learning which answer the research problem. The result showed that most of the respondents give positive perceptions toward the use of New Concept in learning basic English grammar. In this study, the researcher divided into two parts. The first conclusion concerns the perception of students' experience in using New Concept in learning grammar, the second concerns the perception of students about the advantage of New Concept.

The conclusion in this study is based on the research findings and discussion on the students' perceptions on the use of New Concept in learning grammar. The first conclusion about students' experience in using New Concept in learning English grammar showed that students gave positive perceptions towards New Concept, it can be accessed easy way to be used in learning and students also can easy access the grammar material toward it ($\bar{x} = 4.00$). The

students also allow participating in the class which makes them be active ($\bar{x} = 3.92$)

The second conclusion about students' perception about the advantage of New Concept in learning English grammar showed that the students have given the positive perception toward it, it can be accessed on New Concept is easy book to be brought everywhere ($\bar{x} = 4.06$), easy method to be used ($\bar{x} = 3.94$), easier method to learn grammar ($\bar{x} = 3.90$), and it gives motivation to the students in learning English grammar which mostly the students are afraid of it ($\bar{x} = 3.94$).

Therefore from the result of the research, it can be concluded that New Concept is good textbook to learn basic English grammar for the students of BEC.

B. Suggestions

Based on the result of this study, the researcher would like to give some suggestions as follow:

1. The Teacher

It is suggested for the teacher of BEC to pay more attention to the students. Every student has different ability, creativity, and interest. So, the teacher should understand what the students need used on their differences. The teacher could give any additional teaching method to make the students feel enjoy in learning. In addition, the teacher can also provide interesting stimulation in order to challenge the students' thinking power to

increase and provide motivation for students to never give up in learning English.

2. The Future Researchers

It is suggested for the future researcher. This study focused on the population of I and J class only. Hopefully, the next study could continue this research on the other level, department or course. This study also only limited on investigating the online class feature by distributing questionnaire only. The future researcher could add some features as the part of the research by using other instruments, such as an observation or interview to complete the result of this study.
