

CHAPTER V

In this chapter, the researcher present the conclusion and suggestions from the result of the discussion in chapter before.

A. Conclusions

Based on the research findings, the students' perception on the use of online assessment employed in English Learning Teacher has positive responses. Most students agree that this online assessment is effective because it is easy to do anywhere, and they feel confident doing the assessment, and the value that comes out immediately after collecting answers makes them excited. Online teacher assessment can be a form of student appreciation so that they are motivated in the learning process.

B. Suggestions

Based on the result of this research, the researcher would like to give some suggestions to:

1. The teacher

The teacher should be more creative and innovative to managed the assessment applied for the students. Teacher also should be manage the online learning well before delivering the material to the students.

2. The students

The researcher hope the students can use the results of this study to find out the benefits provided by online assessment.

3. Other researcher

The researcher know that this researcher was not perfect yet, but the researcher suggest to other researchers to develop research using online assessment.
