

## ABSTRACT

Firdausi, Aulia. NIM. 12203183222. 2022. *An Analysis of Deixis Used in Black Panther Movie*, Thesis, English Department, Faculty of Tarbiyah and Teacher Training. State Islamic University of Sayyid Ali Rahmatullah Tulungagung, Advisor: Dr. Dwi Astuti Wahyu Nurhayati, S.S., M.Pd.

**Key terms:** *Pragmatics, Deixis, movie, script, context*

Deixis is a word that indicates a person, location, time, social differentiation, and function in conversation. The worst effect of not knowing about deixis is made the listener difficult in understanding about what the speaker means in communication, moreover if the information of the listener is out of the context. The reason that makes the researcher used the movie script to analyze the deixis, by using one of popular movies BLACK PANTHER, the researcher hopes that audience can be more enthusiast in learning about deixis.

The aim of this research is to analyzed five types of deixis based on Levinson's theory, such as person deixis, spatial deixis (place deixis), temporal deixis (time deixis), discourse deixis, and social deixis. This research also to find out the dominant deixis used by main character in BLACK PANTHER movie. The object of this research is BLACK PANTHER movie script. The research method of this research employs qualitative research methods involving content analysis.

Data of this research was from the utterance of the main character. They were analyzed based on Levinson's theory. The researcher looked for the types of deixis according to Levinson theory that was found in main character's utterance in movie script. Data analysis is processes that the researcher does in analyzing data and then interpreting those analyzed data thoroughly. The steps consisted of six steps: selecting, organizing, categorizing, classifying, concluding and interpreting.

This research found the five types of deixis, they are person deixis 224 times (72%), Spatial deixis (6%), Temporal deixis 15 times (5%), Discourse deixis 20 times (6%), and the last one social deixis 35 times (11%). The researcher finds out the person deixis as the dominant deixis used by T'Challa as main character in BLACK PANTHER movie.
