Subject: [AJIS] Editor Decision
Ni'am Syamsun - Ni'am:

We have reached a decision regarding your submission to Al-Jami'ah: Journal of Islamic Studies, "THE DEBATE OF ORTHODOXY SUNNI SUFISM AND PHILOSOPHICAL SUFISM (The Study of Maqamat in the Siraj al-Talibin of Shaykh Ihsan Jampes)".

Our decision is to:

The paper is a quite good piece of work. However, some points need to be highlighted:

The significance of the research; it is stated in the conclusion that Jampes voiced quite different thought from others. This needs to be elaborated in the discussion and the author needs to put his analytical views clearly and relate the discussion on Jampes to what others have done. Did they have the same view as the author?

Lates references need to be added as to make a good dialoge of this work with others and to bring this specific issue to a broader context...

Thanks and best!
