Dear Yudik,

your paper work titled Analysis of Physical Exercise and Physical Fitness Level of Indonesian Hajj Health Workers, after was reviewers review, are send back to you do some changes and send it back on new review.

The reviewers' comments follow:

Check English grammar (wrong spelling, wrong time used, wrong use of singular/plural, wrong words order, missing words, extra words after the sentence with no meaning.
It is hard to read the paper – i suggest that English spoken person corrects it.

Use proper citation (surnames with no names etc.)

Correct the form of Abstract, Results and Discussion. Corrections are stated in the text. There are many methods mentioned, but not presented in Results. In Results there are 4 variables, but in Discussion there are many more variables described. There is no data on knowledge, interviews etc., but it is mentioned in the Abstract and also in the Discussion (scores on knowledge for example...we don't know anything about number of questions etc.).

There are repeated information in Results; we could see the same in the tables and again in the text. Highlight just the most interesting results for example.

Some information should be in Introduction, but it is in Discussion.

Some information should be in Methods, but it is in Results (gender, age..).

Deadline for corrections is 25.11.2022.

Best regards,

Oliver Krička
