

## CHAPTER V

### CONCLUSION AND SUGGESTION

This chapter presents the conclusion of the study related to the implementation of hand puppet of MI Tarbiyatul Athfal Pulotondo in academic year the 2015/2016. This part also talks about the suggestions for the English teachers, the students and the other writers based on the findings on this study.

#### A. Conclusion

From this research, the writers can conclude that implementation of using hand puppet as media is effective in teaching vocabulary at fourth grade of MI Tarbiyatul Athfal Pulotondo academic years 2015/2016.

By analyzing the students' achievement, the writers found:

1. In pre-test, students' achievement in vocabulary mastery was low. The lower score just 56 and the higher score was 88 with mean is 72.41.
2. In post-test, students' achievement in vocabulary mastery had increased. The writers found that the lower score is 68 and the higher score until 92 with mean is 82.16.
3. The significant different is When the  $t_{score}$  is compared to  $t_{table}$  with the degree of freedom 23, the  $t_{score}$  11.800 is higher than  $t_{table}$  1.714. Therefore, based on the hypothesis testing, the null hypothesis ( $H_0$ ) is rejected and alternative hypothesis ( $H_a$ ) is accepted.

They students can solve their difficulties and hand puppet is helpful and effective to understand, memorize, remember and could avoid misunderstanding because the students see the object directly. The writers here can show the students response when the learning process using hand puppet can make student felt enjoy, interest and active, because the advantages of using puppet (hand puppet) is like the students might be motivated to be active in the class, and it can be easier to ask students to give responses and opinion. Compared to the result of the pre-test and post-test, there is significant different in students' vocabulary mastery.

### **B. Suggestion**

Based on the findings on using hand puppet as media for students' vocabulary mastery, some suggestions are offered deeply to the students, the teachers and other writers in order to improve the students' vocabulary mastery. The suggestions are as follows:

#### 1. For the students

The result of this research can be very helpful to improve students' vocabulary mastery and their interest in learning English and make them to be more creative, enjoy, focus and easier.

#### 2. For the English teacher

It can help them if they have the same problems, to create an active classroom, which is very useful for their students to mastery vocabulary. It can motivate the teacher to teach vocabulary more enjoyable, actively and seriously.

### 3. For other writer

Hopefully, this study will become a reference in conducting the other vocabulary research, particularly in using hand puppet as media.
