

## CHAPTER V

### CONCLUSION AND SUGGESTION

In this chapter the researcher presents two points, conclusion and suggestion. The conclusion is based on after getting the result of the research, and the suggestion to the further research.

#### A. Conclusion

The result of this research showed there was any significant different in vocabulary score of students before and after being taught by using flash card of seventh grade at SMPN I Ngantru Tulungagung in the academic year of 2015/2016. Based on the data analysis from the students' score pre-test and post-test, it can be concluded that the teaching English vocabulary by using flash card as the media was effective.

The students' scores after being taught by using flash card is better than that of before being taught using flash card. The students' score of vocabulary before being taught by using flash card was 68.96, meanwhile the students' score of vocabulary after being taught by using flash card was 81.33. It means that the post-test is 81.33 and it is higher than pre-test was 68.96. Furthermore, it was found that the statistical test by using t-test shows that  $t_{count}$  8.096 and  $t_{table}$  at 0.05% level of significance is 2.042. It means that,  $t_{count}$  was upper that  $t_{table}$  with degree of freedom (df) 32 and the level of significance 0.05. It showed that  $8.096 > 2.042$ . Finally, based on explanation

above, it can be concluded that the use of flash card was effective toward students' vocabulary of seventh grade at SMPN 1 Ngantru Tulungagung in the academic year of 2015/2016.

## **B. Suggestion**

Based on the finding of the research score shown above, the researcher tries to give several suggestion as follows:

### **1. For the English teachers**

The English teachers should be more creative in teaching English. They are suggested to use flash card as media in teaching vocabulary because the researcher found in the field that most of students were interested and enjoyed to learn vocabulary. By using this media the students can be active in classroom, they can imagine about what they see. By doing this media, the teaching process will be easier to help the English teacher to explain the material. So, the students can master the vocabulary better.

### **2. For the English students**

It may motivate students to master their interest in learning English. They can felt that English is not always difficult to learn. Their improvement of interest in learning vocabulary will help them mastering English well.

3. For the other researchers

The researcher knows that this research is not perfect yet, it is suggested for other or future researcher to conduct further research on the same field, especially in using flash card to students' vocabulary.
