

## **CHAPTER V**

### **CONCLUSIONS AND SUGGESTION**

This chapter consist of two parts. First part is conclusions which contain of main points that have been discussed in the previous chapters. The second part talks about some suggestion that may be useful for the English teacher, the students and further researcher.

#### **A. Conclusions**

Based on research finding and conclusion, the researcher concluded that the student's vocabulary mastery can be improved by using word and picture on the wall media. It can be seen through the progress of average score from preliminary study (60,5), the result of cycle 1 (71,5) and the result of cycle 2 (82). And the precentage of the students who achieved the criteria of success also improved from preliminary study (40%), cycle 1 (60%), cycle 2 (90%). Based on the student's opinion, word and picture on the wall media is interesting, easy to understand and also hope to memorize the word

The improvement of students vocabulary mastery can be achieved by using word and picture on the wall media with the following step (1) the teacher explained the material with the picture (2) the teacher gave picture for each student (3) the researcher gave instruction for students to find the name of picture and gave assignment (4) the researcher asked the students to presentation their assignment (5) the

students tack the picture on the wall (6) the teacher gave the word related to the picture (7) the students match the word with the picture on the wall (8) the teacher and students discussion together.

Word and picture media can improve the student's vocabulary mastery because this media interested and colourful so the students felt happy and enthusiasm to join the class, word and picture on the wall media is easy to understand and helped the students to develop their vocabulary

## **B. Suggestions**

Here the researcher give some suggestion to the English teacher, student and future researcher.

1. It is suggested for the English teacher to apply word and picture on the wall media to improve student's vocabulary mastery.
2. The students can use the same media in their daily lives to improve their vocabulary mastery.
3. This study hopefully can be used as the contribution in future research. The future researcher can conduct research on this problem using different subject and level. The researcher may use modified this media as much as possible in various kinds
