

CHAPTER V

CONCLUSION AND SUGGESTION

According to the results of the analysis of the *Superman Is Dead's* songs lyrics had helped me to come to the following conclusions:

A. Conclusion

After analyzing *Superman Is Dead's* song lyrics on *compilation* album, I could conclude that there were many figures of speech that could be found and learnt in the songs. Just likes, Metaphore, Hyperbole, Imagery, Personification, can build our imagination to get something new the outside of the world. These figure of speech expressions could lead the artist in finding out the meaning of each song in the album. Moreover, the artist wants to show the listeners about the deep feeling by using the perfect of aesthetics sentences of sadness and depression with figure of speech, because in figure of speech the artist can exaggerate her deep feeling, and they can share what their feeling to listeners. So, we can conclude that we must remember God everywhere, every time although sometimes we face problems. We must try hard to solve our problem and give it to God and believe that God will help us. Sometimes we feel so sad and depressed, remember that we still have God to trust in. God has everything that we need, and believe that God will help us. People do not have an authority to reject the authority of God. God makes a promise that God will help us if we try hard to solve our problems, keep praying and surrender ourselves to God. God knows everything, what we have done, we are doing and, we will do. The artist sometimes feels so desperate to solve their problems, but they try to survive and she believes that God will help her. God always reminds her of His creation that God exists in everything. To describe the

almighty of God, the artist uses figure of speech, because the artists are not able to describe the almighty of God by means of ordinary. In figure of speech, the oneness of God can be described. Each song in this album has various meanings but some of them had similar meaning to each other such as *Memories of Rose* and *Bad, Bad, Bad*. Although each song in this album has various and different meanings, these have aesthetic aspect through figure of speech to strengthen the meanings of the songs. Figure of speech in each song of the album has many meanings. From the album, we could see that sense of depression is one of common happened when someone feels desperate. Sometimes sense of depression can make us become mad. On the other hand, it can also make us get closer to God. Depression is a normal response to many life's stresses. It can be characterized by such adjectives as blue, melancholia, dejected, or discouraged. It appears among this situation as people as failure at work because the world is different, loss of beloved one, dispute with someone, or the realization of aging and serious illness or depression may be described as feeling sad, blue, unhappy, miserable, or *down in the dumps*. Most of us feel this way at one time or another for short period.

B. Suggestion

After the previous discussion and explanation, I would like to present some suggestions related to the analysis as follows: 1. The students can improve their way of listening to songs especially for Senior High School students by looking for and analyzing the figures of speech in the songs they listen to, 2. The students should not only listen to the songs and read the lyrics of the songs themselves, but they also need to learn the meaning and what things they can take as from the songs to be taken as lessons.
