Putri, Nikita Adinda. NIM. 12203193045. 2023. *The Correlation Between Students' Extraversion Personality and Their Speaking Performance In Sidney Modern English Club Tulungagung*. Thesis. English Education Department. Faculty of Tarbiyah and Teacher Training. State Islamic University (UIN) Sayyid Ali Rahmatullah Tulungagung. Advisor: Dr. Arina Shofiya, M.Pd.

Keywords: *Correlation, Extraversion Personality, Speaking Performance,*

Speaking as a productive activity is one of the skills that students must master because speaking is an interactive process in constructing meaning involving the production, reception and processing of information. Speaking ability is influenced by many factors, one of which is affective factors, which has a part, namely personality. Students at Sidney Modern English Club Tulungagung have personalities that are quiet (introvert), balanced (ambivert) and cheerful/active (extrovert). And from each type of personality produces different speaking performance skills. Students who are active (extrovert) will tend to have good speaking performance. While quiet students (introverts) have low speaking performance.

The formulation of this research problem is, "Is there a correlation between students' personality extraversion and their speaking performance in Sidney Modern English Club Tulungagung?" Based on the research problem, this research aimed to find out whether any correlation between students' personality extraversion and their speaking performance in Sidney Modern English Club Tulungagung? This research used quantitative approach with correlation design. The population is taken from tenth grade vocational students of Sidney Modern English Club Tulungagung and the sample was 30 students from group A. The instrument used was extraversion personality questionnaire. The instruments used were extraversion personality questionnaire and speaking performance test. Pearson Product Moment was used to analyze the data after the data were collected.

Based on the research analysis, there is a correlation between extraversion personality and speaking performance. The researcher found the sig is $0.000 < 0.05$. So, the null hypothesis (H_0) is rejected and the alternative hypothesis (H_1) is accepted. The conclusion is that there is a correlation between extraversion personality and speaking performance of group A students in Sidney Modern English Club Tulungagung. The results of the Pearson Product Moment calculation above obtained a correlation coefficient value of 0.862. According to Jonathan Sarwono's theory, the correlation value is at a very strong level, which is between 0.75 - 0.99. In conclusion, there is a very strong relationship between extraversion personality and speaking performance of group A students in Sidney Modern English Club Tulungagung.

ABSTRAK

Putri, Nikita Adinda. NIM. 12203193045. 2023. *The Correlation Between Students' Extraversion Personality and Their Speaking Performance In Sidney Modern English Club Tulungagung*. Skripsi. Keywords: *Korelasi, Kepribadian Ektraversi, Performa Speaking.*

Berbicara sebagai kegiatan produktif yang merupakan salah satu keterampilan yang harus dikuasai siswa karena berbicara merupakan proses interaktif dalam mengkonstruksi makna yang melibatkan produksi, penerimaan dan pengolahan informasi. Kemampuan berbicara dipengaruhi oleh banyak faktor salah satunya adalah faktor afektif, yang memiliki bagian yaitu kepribadian. Siswa di Sidney Modern English Club Tulungagung memiliki kepribadian yang pendiam (introvert), seimbang (ambivert) dan periang/aktif (extrovert). Dan dari masing-masing tipe kepribadian menghasilkan kemampuan performa speaking yang berbeda juga. Siswa yang aktif (extrovert) akan cenderung memiliki performa speaking yang bagus. Sedangkan siswa yang pendiam (introvert) memiliki performa speaking yang rendah.

Rumusan masalah penelitian ini adalah, “Apakah ada hubungan antara kepribadian ekstraversi siswa dengan performa speaking mereka di Sidney Modern English Club Tulungagung?” Berdasarkan rumusan masalah, penelitian kali ini untuk mengetahui Apakah ada hubungan antara kepribadian ekstraversi siswa dengan performa speaking mereka di Sidney Modern English Club Tulungagung? Penelitian ini menggunakan pendekatan kuantitatif dengan desain korelasional. Populasi diambil dari siswa SMK kelas 10 di Sidney Modern English Club Tulungagung dan sampelnya adalah 30 siswa dari group A. Instrumen yang digunakan adalah kuesioner kepribadian ekstraversi dan tes performa speaking. Pearson Product Moment digunakan untuk menganalisis data setelah data terkumpul.

Berdasarkan analisis penelitian, terdapat hubungan antara kepribadian ekstraversi dengan speaking performance. Peneliti menemukan sig adalah $0,000 < 0,05$. Jadi, hipotesis nol (H_0) ditolak dan hipotesis alternatif (H_1) diterima. Kesimpulannya adalah adanya hubungan antara kepribadian ekstraversi dengan performa speaking siswa dari group A di Sidney Modern English Club Tulungagung. Hasil perhitungan Pearson Product Moment di atas diperoleh nilai koefisien korelasi sebesar 0,862. Menurut teori Jonathan Sarwono, nilai korelasi berada pada level sangat kuat, yaitu antara 0.75 – 0.99. Kesimpulannya, terdapat hubungan yang sangat kuat antara kepribadian ekstraversi dengan performa speaking siswa dari group A di Sidney Modern English Club Tulungagung.
