Sumber data diperoleh dari data Primer dan sekunder, dimana data primer diperoleh melalui wawancara dengan informan yang telah ditetapkan kemudian hasil wawancara diolah dan dianalisis oleh peneliti secara langsung. Data Sekunder diperoleh dari jurnal, buku dan skripsi. Teknik pengumpulan data menggunakan wawancara, observasi, dan dokumentasi. Teknik analisis data menggunakan kondensasi, pemaparan data, dan penarikan kesimpulan.

Hasil penelitian menunjukkan Konsep Program Pembangunan Manusia, Penanggulangan Kemiskinan, dan Pembangunan Infrastruktur Publik dalam Meningkatkan Perekonomian Desa Banaran dengan pengadaan kelengkapan infrastruktur layanan untuk memenuhi sektor pendidikan, sektor kesehatan, lapangan kerja, dana bantuan sosial dan kelengkapan infrastruktur publik. Kontribusi Program Pembangunan Manusia, Penanggulangan Kemiskinan, dan Pembangunan Infrastruktur Publik dalam Meningkatkan Perekonomian Desa Banaran dengan Membangun Posyandu, Puskesmas, mengadakan sosialisasi pekerjaan, pengadaan honor untuk pengajar paud dan TK, memberikan bantuan kepada masyarakat berupa tunai maupun non tunai, mengadakan sosialisasi praktik pengembangan skill pekerjaan, dan memperbaiki serta membangun ulang sektor infrastruktur publik. Dampak yang dirasakan masyarakat sangat signifikan dimana melalui program mampu meningkatkan pertumbuhannya ekonominya, masyarakat dipastikan jauh lebih produktif. Beberapa dampak yang terjadi yaitu meningkatnya pendapatan masyarakat, terciptanya peluang usaha, memudahkan distribusi sektor ekonomi, dan masyarakat mampu memenuhi kebutuhan primer dan sekunder

**Kata Kunci : Kontribusi, Program, Meningkatkan Perekonomian**

## **ABSTRACT**

*Thesis with the title “Contribution of the Human Development Program, Poverty Reduction, and Public Infrastructure Development in Encouraging the Economy of Banaran Kauman Village, Tulungagung Regency” written by Mia Yuanita, NIM. 126402202119, Department of Sharia Economics, Faculty of Economics and Islamic Business, Sayyid Ali Rahmatullah State Islamic University Tulungagung, supervised by Dr. Sutopo, M.Pd.*

*The research was motivated by the condition of the area, which is mostly rice fields, and the economic situation with the majority of farm workers. So that the government has a role to encourage the economy of Banaran Village to be better and create community welfare, by creating various programs based on indicators of economic improvement, such as human development, poverty alleviation, and infrastructure development.*

*The focus of this research is How is the Concept of Human Development Program, Poverty Alleviation, and Public Infrastructure Development in Encouraging the Economy of Banaran Village Kauman Tulungagung Regency?, How is the Contribution of Human Development Program, Poverty Alleviation, and Public Infrastructure Development in Encouraging the Economy of Banaran Village Kauman Tulungagung Regency?, What are the Economic Conditions and Contributions felt by the Community before and after the Human Development Program, Poverty Alleviation, and Public Infrastructure Development in Encouraging the Economy of Banaran Village?*

*This research uses qualitative research, with the type of research being case study research. Data sources are obtained from Primary and secondary data, where primary data is obtained through interviews with informants who have been determined then the results of the interviews are processed and analyzed by researchers directly. Secondary data is obtained from journals, books and theses. Data collection techniques using interviews, observation, and documentation. Data analysis techniques use condensation, data exposure, and conclusion drawing.*

*The results showed that the concept of the Human Development, Poverty Reduction, and Public Infrastructure Development Program in Encouraging the Economy of Banaran Village is by providing complete infrastructure and services to fulfill the education sector, health sector, employment, social assistance funds and complete public infrastructure. The contribution of the Human Development, Poverty Reduction, and Public Infrastructure Development Program in Encouraging the Economy of Banaran Village by Building Posyandu, Puskesmas, conducting job socialization, providing additional costs for pre-school and kindergarten teachers, providing assistance to the community in the form of cash and non-cash, conducting socialization of work skill development practices, and repairing and rebuilding the public infrastructure sector. The impact felt by the community is very significant where through the program it is able to increase its economic growth, the community is certainly much more productive. Some of the impacts that occur are increasing community income, creating business opportunities, facilitating the distribution of the economic sector, and the community is able to meet primary and secondary needs.*
