The Umrah travel industry in Indonesia is increasingly competitive. Many Umrah travel agencies have sprung up by offering various Umrah packages with different prices and quality. This means PT Alhakim Lina Jaya needs to continue to improve the quality of its services and facilities in order to remain competitive and satisfy Umrah pilgrims.

This study aims to examine the influence of service quality and facilities on Umrah pilgrim satisfaction at PT Alhakim Lina Jaya. The research method used is quantitative, with data collection techniques through questionnaires distributed to 90 Umrah pilgrims of PT Alhakim Lina Jaya. The data obtained were analyzed using multiple linear regression analysis to find out how much the quality of services and facilities had an effect on congregational satisfaction.

The results of the study show that the quality of service and facilities has a significant positive influence on the satisfaction of Umrah pilgrims. The quality of service, which includes friendliness, speed, and accuracy of service, plays an important role in increasing congregational satisfaction. In addition, adequate facilities such as accommodation, transportation, and Umrah equipment have also been proven to contribute positively to the satisfaction of pilgrims.
