

## **CHAPTER V**

### **CONCLUSION AND SUGGESTION**

This chapter is devoted to draw some conclusions and suggestions based on the research findings and discussion presented in the previous chapter.

#### **A. Conclusion**

Based on the result of data analysis, some conclusion are drawn as follow:

1. The student's ability in speaking before being taught applying picture series is generally low. It can be seen from the score obtained by the students before being taught applying picture series that from 33 students there are 13 students obtain score under 11 (passing score) and 20 students obtain score more than 11. It means that 13 students do not pass.
2. The students' ability in speaking after being taught by applying picture series is better than before. It is shown from the score obtained by the students after being taught by applying picture series where 31 students pass the test and only 2 students do not pass.
3. There are significant differences score of the students' achievement in speaking before and after being taught by applying picture series. The total score after being taught by applying picture series is higher than before. It is showed by the result of T- score 12.291 that is greater than T- table 2.042. In

conclusion, picture series is effective used in teaching speaking for the first grade students' of SMAN 1 Kampak.

## **B. Suggestion**

Based on the results of the research, some suggestions are addressed:

### **1. For the school**

Considering that teaching speaking applying picture series is effective, therefore, it is suggested that the institution should facilitate the teachers to conduct collaborative teaching.

### **2. For the teachers**

It is suggested that the English teachers, especially in senior high school to apply picture series. In addition, teachers must make teaching and learning process become more interesting, fun and enjoyable, so the students will not get bored and they feel more confident to perform their speaking in front of the class.

### **3. For the future researcher**

As this research is not perfect yet, it is suggested to conduct further research on similar area by improving the methodology or to use it as a reference to conduct a further research related to use picture series in difference area of teaching.
