

CHAPTER V

CONCLUSION AND SUGGESTION

Based on the description of findings presented in the previous chapter, conclusion and suggestion are presented in this chapter.

A. Conclusion

Based on the explanation of the previous chapter, the researcher concluded that: The total score of the student before being taught by using short story was 2185 and mean score of the student before being taught by using short story was 57.50. The total score of the student after being taught by using short story was 2775 and mean score of the student after being taught by using short story was 73.03.

From the statistical computation using Paired Sample T-Test on SPSS 16.00. The researcher got the score of significant value was 0.000, it means that the level of significance was less than 0.05 ($0.000 < 0.05$) so the null hypothesis was rejected. It means that that there was significant difference in the vocabulary scores of the students before they are taught by using short story and after they are taught by using short story. In conclusion, teaching vocabulary by using short story was effective to improve the students' vocabulary achievement.

B. Suggestion

Based on the result of the research finding, the researcher would like to give some suggestions as follow:

a. For the students

The researcher recommended for the students to use short story when they are learning vocabulary because it was proved that using short story the students' vocabulary mastery can be improved. Furthermore, using short story can make students' motivation to study is high and the learning process becomes fun and challenging.

b. For the teachers

Short story was effective in teaching vocabulary. The researcher recommended for the teacher to use short story in teaching vocabulary to increase vocabulary mastery of the students because short story helps students to learn vocabulary easily and the students become motivated to join learning process.

c. For the future researcher

This research was limited in teaching vocabulary of X-MIA 3 MAN 2 Tulungagung, the researcher hopes for the future researcher conduct similar research by using short story in different context and it can be used as a reference.
