

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter present conclusion and suggestion from the research finding. The conclusion is presented based on the result of the data analysis of the research. In addition, suggestuins are given to the students, the English teacher, and future research

A. Conclusion

After the data were analyzed, it can be seen on the data analyzed taht there is a significance different of using three step interview strategy on students' speaking ability in news item text which from mean of 28 students of experimental class is 65.64 become 82.50 after being taught by using three step interview strategy. Although, there is improvement mean of 23 students' in control class is 59.78 become 65.30, but the improvement in experimental class is higher than control class. Based on the result of *independent T-test by using SPSS 16.0 program* , it showed that the significance value is 0.00. It means that the significance value is smaller than significance level ($0.00 < 0.05$). The result of significance value indicate that the null hypothesis (H_0) is rejected and the alternative hypothesis (H_a) is accepted. So, there is a significant different of using three step interview on students' in present the news on news item text at SMAN 1 Tulungagung. In the other word, it means that three step interview strategycan be used as alternative strategy to teach speaking especially in news item text.

B. Suggestion

The finding of the data shows that there is significance different of three step interview on students' speaking ability on news item text. The researcher gives the suggestion for the students of SMAN 1 Tulungagung, English teacher and Future researcher.

1. English Students of University

The students should pay more attention to the explanation by the teacher, students should be creative and more motivated to speak in order to improve their speaking ability, and then make the student to be opportunities to practice English.

2. English Teacher

The role of teacher is important to choose the appropriate media and teaching strategy in English learning process. Three Step Interview is good choice which can be used as alternative strategy to teach speaking especially in news item text. Because by using three step interview the students can catch more ideas, then the ideas generate into argumentative speaking easily to develop the topic.

3. Next Researchers

For the next researcher to conduct research on the similar or different skills. Therefore, use this research as the reference for the next researcher studies. This researcher will give some knowledge for the next research about the

advantages of using three steps interview strategy to catch ideas in speaking process especially in news item text.
