

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter will present the conclusion of the study and the suggestion. This is the last part of the research about expressive speech act from the Fate of the Furious movie script. The conclusion in this researcher is as the answer based on the formulated research question.

5.1 Conclusion

Based on the data analysis and discussion in the chapter V, finally the researcher conclude that there are nine kinds of expressive speech act that are stated by George Yule and Searle that are stated in the Fate of the Furious movie script. Those are five expressions of *apologizing*, six expressions of *thanking*, thirteen expressions of *praising*, six expressions of *blaming*, six expressions of *welcomig*, three expressions of *pleasure*, six expressions of *like*, nine expressions of *dislike*, three expressions of *sorrow*. The kind of expressive act that most often appears are *praising*. The occurence percentage of praising are 22.8 %.

5.2 Suggestion.

After the researcher obtains the results of the analysis from the data, I would like to contribute some suggestions for the consideration, which are significant for the student and future researcher.

1. For the Student

- a. Student must be aware with English as International language. So, they must learn about English well not from the book material but also from novel, film or another literature to make them get deep knowledge about English and the culture.
- b. The student should know how to use English in the conversation by using proper and appropriate utterance so his/her utterances can easily understand by hearer.

2. For the future researcher.

Speech act is always an important part of language and communication.

The researcher must develop their knowledge about the speech act. So, people that interest with speech act can learn deeply and clearly about speech act from the research.
