

## CHAPTER V

### CONCLUSION AND SUGGESTION

In this chapter the researcher presents two points, the conclusion after getting the result of the research, and the suggestion to the further research.

#### A. Conclusion

Based on research problem and research objective and also the research finding in previous chapter it can be concluded that the student score of speaking achievement in experimental class the mean of 31 students were increased. In pre-test the score of mean was 49.7742 and 50.7742 in post-test. It means that their score also increased and the student score of control class the mean of 32 students decrease. In pre-test the score of mean was 45.2188 and 44.9062 in post-test,

Finally, Based on the explanation above, it means that the students of second grade in MAN 1 Trenggalek have better score after taught by short movie as media in teaching and learning process than those students who learning speaking without taught by short movie as media. So, the short movie is effective to increase students' speaking skill.

## **B. Suggestion**

The finding of this research showed that there was significant effect of using short movie as media on students' argumentative speaking. Therefore the researcher give suggestion to the English teacher that become teacher must be creative in teaching and learning process in order to make the student more interested to join in the class. Because most of students state that English language is not only difficult but also important to be master, so become teacher must has a lot of media, technique and strategy that make students not only interested but also give better change. The teacher must able to change of students' thinking that English language is difficult to learn.

Suggestion for students, that watching western movie is important because with it the students will try to follow them, such as their pronunciation, and they will get more vocabulary, but as students must able to choose good movie, which bring us to be better. And one more that English language is not boring but it is important for our future.

Suggestion for further researchers, that the further researcher should conduct this media at the different levels of students. Because short movie interesting for students and should conduct with other movie and other themes.
